Leads-throughout-malnourished-poverty-infected-devoted-leaves-trade-these-deeper

Televised images of starving children have brought the problem of global hunger home to people in rich countries. Sadly, however; the problem is far.....than an immediate lack of food. Around a billion people are....., and around a sixth of.....are children. That is a deplorable human tragedy which.....to measurable economic losses-i.e., further.....Lives are shortened, causing lost production and income. Those who survive the effects of malnutrition may be less productive, perhaps.....their lives. Hunger also often.....people more susceptible to disease, so that more production has to be.....to health care.

2) Circle the right alternative. (4 marks)

Most mothers-to-be hope to give birth safely to a baby that is alive and well and to see it grow up in good health. Their chances of doing (**so – therefore – then**) are better at present than ever before-not least because they are becoming aware (**by – to – of**) their rights. With today's knowledge and technology, the vast majority of the problems that (**heal – threaten – ban**) the world's mothers and children can be prevented or treated. Most of the millions of untimely (**deaths – celebrations – recoveries**) that occur are avoidable, as is much of the suffering that (**provides – derives – comes**) with ill-health. A mother's death is a tragedy unlike (**others – other – another**) , because of the deeply held feeling that (**anyone – someone – no one**) should die in the course of the normal process of reproduction and because of the (**beneficial – expected – devastating**) effects on her family . In all cultures , families and communities acknowledge the need to care for mothers and children .

3) Put the bracketed words in the right tense or form . (4 marks)

Dr Nigel Chapman yesterday issued a warning over the dangers of digital music players . Following the death of a young (**finance**)analyst . Matthew Johnson , 22 , was rushing to work while (**listen**) to music through headphones on his MP3 player when he (**hit**) By a lorry . Dr Chapman warned that thousands who received MP3 player and walkmans as a (**give**) this Christmas should take extra care . “ There are huge dangers when you (**be**) not fully aware because you are listening to music on some device ; Dr Chapman said . Mr Johnson , who (**employ**) by a large company , was just 15 minutes to work . A witness who (**drive**) behind the lorry said : He (**wear**) headphones and listening to music .

From time to time, every family has little problems, especially if there are young children in the home. Sometimes the problems are caused by common illnesses, like coughs and cold, or by aches and pains, as when children have toothache or stomach-ache.

Sometimes they are caused by domestic accident, like electric shocks or falling down stairs.

Every home should have a first-aid book and a first-aid kit. The kit should have bandages, scissors, some tablets or medicine to kill pain, and a thermometer. You never know when these things will be needed. Adults may cut themselves while shaving, or slip on a wet bathroom floor after having a shower. Children may swallow buttons, or get a shock from the television set or a wall plug.

When anyone has had a serious accident, like a broken arm, or suffering from shock, it is important to keep the warm and quiet. Do as much as you can to help the injured person, but always call a doctor or professional help as soon as possible.
